Educate, Inspire, Enrich

Teacher Training Courses for Foreign Language Teachers (English)

UKLC: At the heart of high-quality teaching

UKLC holds accreditation from the **British Council** and has more than 20 years' experience in the **TEFL industry**. We have been awarded the title of **Centre of Excellence 2019** in the **EL Gazette**, following our successful British Council inspection in 2018. We obtained a very positive evaluation in all 15 areas of assessment and received **strengths** in 9 of these, specifically Strategic and Quality Management, Staff Management, Premises and Facilities, Learning Resources, **Course Design**, Care of Students, Accommodation, Leisure Opportunities, and **Care of Under 18s**. We have experience in running Teacher Training programmes. We have been **coordinating** mobility projects for British EFL teachers abroad for 8 years (**Erasmus+**, EU funded) and in 2019 we carried out a successful 12-week programme for 20 Korean English Teachers in collaboration with British Council South Korea.

For more info email raffaele@uklc.org

Educate, Inspire, Enrich - even long-distance!

At UKLC we like to stick to our **principles** and we believe in the value of **education**, **development**, and **improvement**. Excellence is not just an objective for learners, but one for teachers as well. This is why we have created an **Online Teacher Training** course that aims at **empowering** the potential of both native and non-native English teachers. These **times** have caught us a little unprepared to **engage students** in new journeys of learning and to create **diverse** learning experiences for them and for us. This is why we have crafted a **new** programme aimed at **enhancing** what each teacher already has to offer to continue to **educate**, **inspire**, and **enrich** the future generation of English language learners.

Your Trainer: Raff Cutolo

Raff is UKLC's **Academic Director**. He has taught English **Language** and Literature at university level, as well as primary and **secondary** schools and has experience **training** English teachers in **international** contexts.
